Brett Allen Holter
1958 ~ 2009

Brett Allen Holter, age 51 died July 24, 2009 in Salt Lake City, Utah.

Brett was born July 24, 1958. Born in Seattle, WA. His parents were Robert Holter and Geri Holter. Brett married Susan at Lake Tahoe on June 21, 1989.

Brett's passions in life were his family; his wife Susan and beautiful daughter Ellen, and his home. He cherished going to movies with Ellen, and loved to spend his time outdoors gardening in his yard, camping, boating, and riding his motorcycle.

Brett began with Western Airlines in 1979, and spent most of his career in SLC. All who have had the pleasure of flying with Brett know him as a delightful person to work with, and a tireless worker; he could run circles around the best, and took great pride in working hard, both inside and outside of Delta. Susan shared that his peers would hold up napkins in the galley to "mop his brow" so he could go right back out into the aisle again. More importantly, most will remember Brett for his kind spirit.

Brett was recognized in 1998 as a Chairman's Club Honoree, a testament to the respect and admiration he had earned from his peers. He had received well over 100 compliments from both coworkers and customers throughout his career, using words like "hard working, kind, calming, comforting, and enthusiastic". One simply said, "You will find all the Delta values in Brett." Brett was our best friend, neighbor, father, son, brother, husband. We cannot possibly in this short time express all he meant to us. We will remember and honor him always. A friend said Brett was a man who had no enemies. He was one of the most well liked men amongst the thousands of Delta employees.

Brett was the heart of his neighborhood. And at home, his daughter Ellen was his soul. We love him. And will love him forever.

Preceded in death by his mother Geri, and his dog, his friend, Riki.

Survivors include his wife Susan, his daughter Ellen, his father Robert and step-mother Sherer, his sister Jody and her husband Jamie, his nephews Joey and Jake and niece Emilee, his sister Michelle and brother-in-law Jamie, his niece Natalie and many other extended family members.

Services were held Wednesday, July 29, 2009 at 7 p.m. at Red Butte Gardens 300 Wakara Way, Salt Lake City, Utah.

A memorial service will be held in the near future in Maple Valley. When details are available a notice will be published in the VOICE.

Greater Maple Valley-Black Diamond Chamber of Commerce Corner

A message from the Chamber's Board President, Kevin Kalberg

Last month I put down a challenge to everyone to join me in reading one book per month as a positive move toward filling our minds with positive encouragement and practicing life long learning.

The first book I finished was Spencer Johnson's "Who Moved My Cheese." This is the story of four mice (Sniff and Scurry and Hem and Haw) living in a maze searching daily for enough cheese to eat. One day they happened upon "Cheese Station C" where they found what they thought was enough cheese to last forever. Believing they had found cheese heaven they stopped their routines of searching for the next meal. Day after day they returned to station C to enjoy the piles of cheese and continued to put off the search for new cheese. One day Sniff and Scurry noticed the cheese supplies diminishing so they started to prepare for the new search for cheese while Hem and Haw were blinded by their belief that the cheese supply would never end. The end had come when Hem and Haw returned to Cheese Station C to find no more cheese.

After looking high and low for the cheese, anger and disappointment set in with Hem shouting "Who Moved My Cheese?" Sniff and Scurry, who had prepared for change, had moved on and found more cheese further into the maze. For days Hem and Haw came back to Station C to find no cheese. Haw suggests looking for new cheese but Hem is still in denial about his cheese supply and the lack of fairness to his situation.

After the hunger and desperation set in Haw begins to question his current situation and questions his fears. He asks himself "What would you do if you weren't afraid?" Haw enters the maze writing on the walls various encouraging notes for his friend should he venture out and find him into the maze.

Slowly Hem is battling his fears of change finding out that in his mind he had made the fear of the unknown worse than it actually was. He had realized that "When you move beyond your fear you feel free." He begins to find small pieces of cheese along the way, building confidence with each new find and realizing that the cheese he had at Station C had become moldy and old. The further he goes the more encouraged he is that new cheese is out there. Finally he finds his friends Sniff and Scurry at Cheese Station N with mountains of cheese, even some that he hadn't had before. He reflects and writes: Change Happens "They keep moving the Cheese". Anticipate Change "Get ready for the cheese to move", Monitor Change "Smell the cheese so often so you know when it is getting old", Adapt To Change Quickly "The quicker you let go of the old cheese, The sooner you can enjoy the new cheese". Change "Move with the cheese", Enjoy Change "Savor the adventure and enjoy the taste of new cheese". Be Ready To Change Quickly And Enjoy It Again and Again "They keep

moving the cheese!"

This is such a great read it reinforces our need to not only accept change but to embrace it. Most of the most successful people in this world are the ones who anticipate change, react quickly and lead others into the unknown. I think in this ever changing economy we should take these lessons and put them to work daily in our lives. My message this month is go get some new cheese!

Next month's book will be Dan Miller's "48 Days To The Work You Love." For September I will be reading "Guerilla Marketing", I hope you will join me in expanding our minds and future!
